

	QUALITY POLICY ISO-9001:2015	Rev. - Cod. 005 Page 1 / 1
---	---	---

The Managing Directors of OPTIMUS deem that Quality Management is essential for the company's excellence and they therefore wish to state and notify the following commitments to all staff and parties involved:

- Analyze the internal and external context to define the organization's strategy.
- To continuously improve the Quality Management System at OPTIMUS, in accordance with the ISO 9001:2015 standard in order to respond to the needs and expectations of our present and future customers.
- To develop the activities required to obtain the utmost quality and continuous improvement in our products and services, in accordance with the requirements of our customers, stakeholders, as well as the legal ones and the regulations of the business sector.
- To manage the processes that allow for the achieving of the planned business results together with the commitments towards Quality, Prevention, Occupational Health and the Environment.
- To obtain the utmost satisfaction of our customers and collaborators.
- To maintain the motivation, involvement, up-to-date training, full responsibility, competence, professional ethics and autonomy of the human team in their respective functions.
- Establish the necessary mechanisms to ensure that internal and external communication is effective.
- To set measurable Quality Targets in order to review the continuous improvement and the effectiveness and efficiency of the Management System. These targets are set by the Managing Directors by means of the Quality Targets Plan that is reviewed on an annual basis.
