

OPTIMUS SOLUTIONS

COMMERCE

Department Stores, Hardware Store, Sport Stores.... are generally areas with a large influx of public that require intelligible broadcasting, either live or pre-recorded, for commercial advertisement, informative notes, or alarm messages. Normally the hall has a very high roof and it is required a kind of speaker with acoustic wide spread & high sound pressure.

Moreover, the Public Address System must cover other zones, such as outdoor areas, car park areas, loading and offloading goods areas... dealing with the broadcasting to either one, several or all zones.

ZONES CONTROL

audio matrix

with configurable number of inputs and outputs.

microphone desks
